WHY WORK WITH WORLDWIDE RESEARCH

"PRIORITIZING RESPONDENT EXPERIENCE

At Worldwide Research Company, we deeply value our respondents and recognize the critical role they play in shaping impactful insights. Their time, perspectives, and experiences are the foundation of our research, and we are committed to treating them with respect, ensuring their voices are heard, and maintaining their privacy. By fostering a positive and trustworthy environment, we aim to build lasting relationships and empower respondents to contribute meaningfully to advancing industries and communities worldwide.

"ENSURING QUALITY AND ACCURACY

At Worldwide Research Company, we prioritize delivering high-quality and valid insights by adhering to rigorous research standards. Our methodologies are designed to ensure accuracy, reliability, and relevance, supported by robust data validation processes. By leveraging advanced tools and best practices, we ensure that every study reflects true and actionable insights, empowering our clients to make informed decisions with confidence.

COMMITMENT TO EXCELLENCE

At Worldwide Research Company, we strive for perfection in every aspect of our work. From meticulous research design to flawless execution, our commitment to excellence ensures that we exceed expectations. By continuously refining our processes and embracing innovation, we deliver results that set the standard for precision, reliability, and impact in the research industry

WHY WORK WITH WORLDWIDE RESEARCH

ACHIEVING EXCELLENCE

We correctly match the respondents to the study to ensure that the study will run as expected in budget and on time. We combine our strength and skills of our people to push them beyond the

TARGETED PANEL SOLUTIONS

We segment our panelists according to their demographic and background information and we collect considerable amount of data point from respondents to segment them accordingly

STRATEGIC TARGETING

Our team is highly skilled and dedicated to understand the client needs, we provide the difficult recruitments of KOLs to industry leaders to ensure research target will remain as intended.

SEAMLESS PLATFORM

Our sampling and survey services will allow you to complete the research project end-to-end with one point of contact.

ENHANCED RESPONSE RATE

We ensure that only panelists who are eager and interested in responding will remain in our panels, we follow rigorous registration process to validate new members

PARTICIPATION OPTIMIZATION

We remove bad panelist frequently to eliminate fatigue and bias responses in data collection through our various tools for quality control with high level of sampling filters.

ESSENTIAL SAMPLE VITALS

Worldwide Research is a trusted leader in online market research, offering valuable insights through expansive consumer, business, and healthcare panels. We empower businesses to make informed decisions by leveraging our innovative technologies and diverse, responsive panels.

With the rapid growth of internet access in previously underserved regions, we now reach broader audiences than ever before, delivering actionable insights across global markets. Stay ahead with Worldwide Research—your partner in data-driven success.

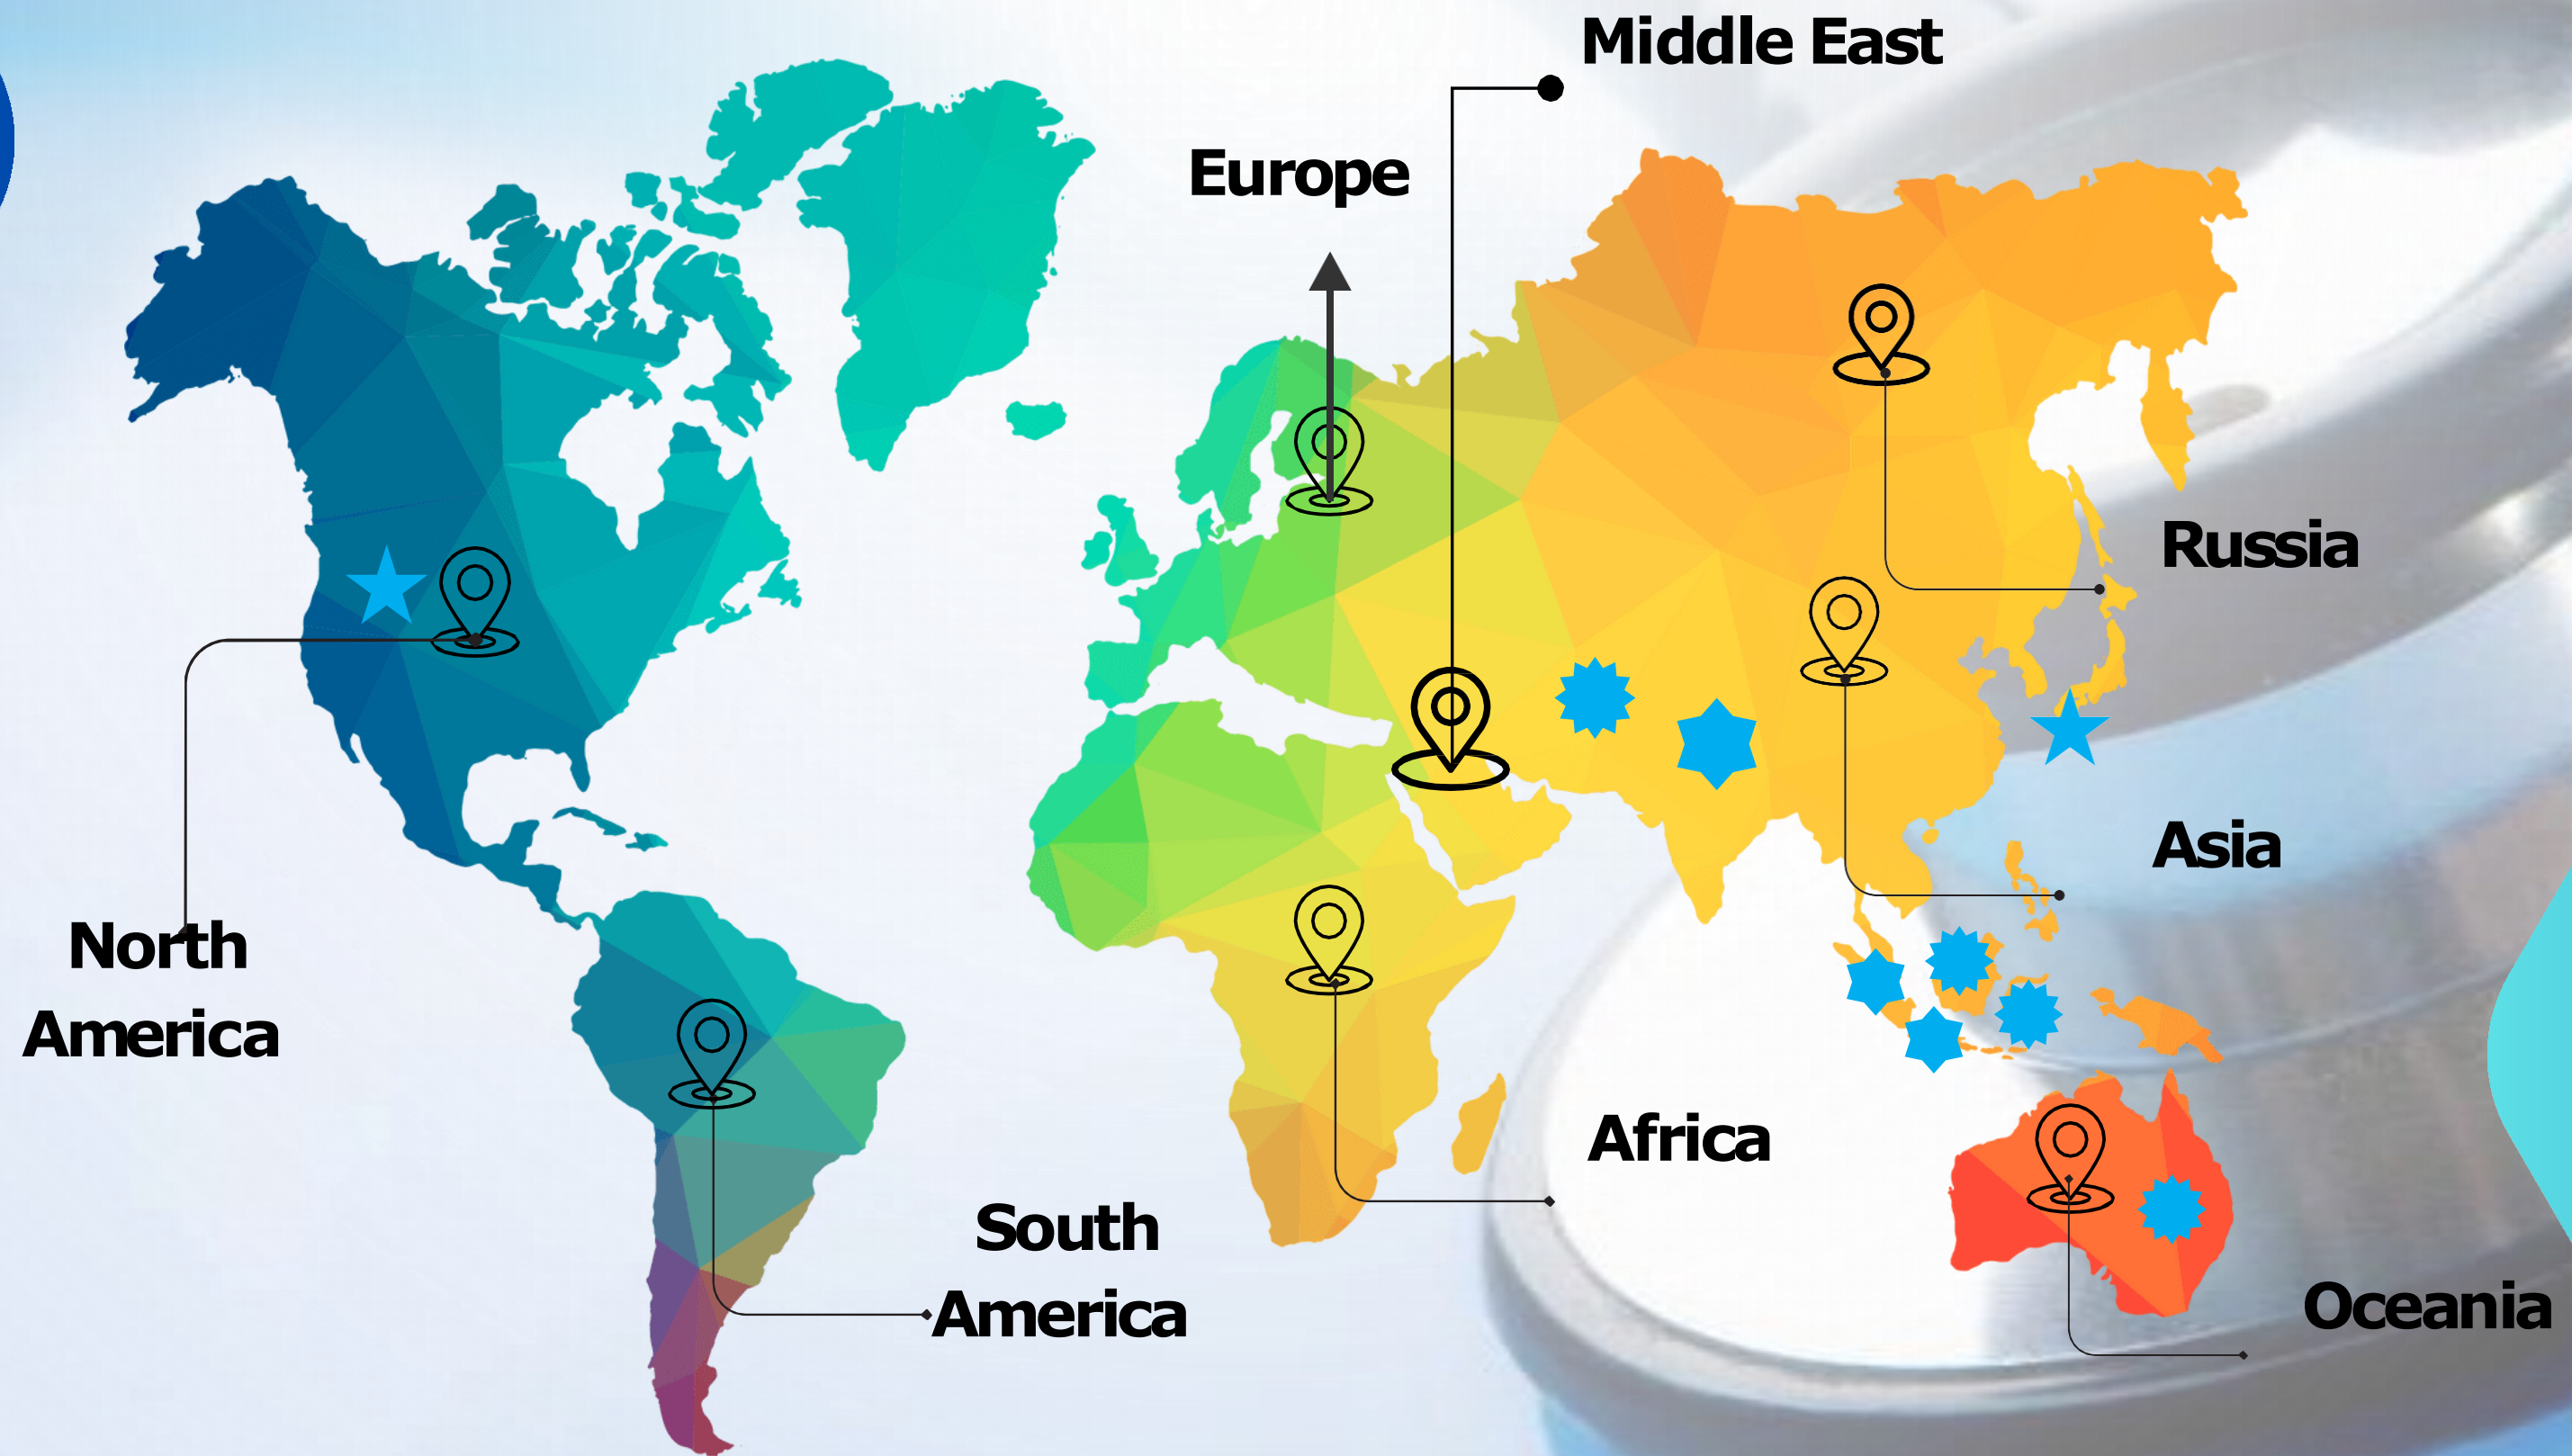

Our Approach:

At Worldwide Research, our "respondent-first" approach drives our success. With thousands of panelists joining weekly, our recruitment team ensures continuous engagement and responsiveness. This commitment enables us to deliver tailored, high-quality panels that meet the unique needs of our clients.

Key Highlights:

- **3,50,000+** global healthcare panelists across diverse specialties.
- **Hyper-targeted criteria**, including demographic, specialty, and experience filters.
- **Successful completion** of numerous online healthcare projects worldwide.
- **93%** of projects fulfilled using our exclusive, instant panel access. **85%** live project completion rate.
- **92%** client satisfaction with our instant services.

GLOBAL PANEL COVERAGE

PANEL RECRUITMENT AND MANAGEMENT

Respondent First:

Worldwide Research focuses on delivering high-quality sampling and impactful research outcomes by engaging highly motivated survey respondents. Our actively involved panel members ensure higher satisfaction, sustained participation, and valuable insights that empower clients to make informed decisions.

SIMPLE RECRUITMENT PROCESS:

Our panel recruitment is transparent and efficient, using trusted third-party agencies to recruit from hospitals, health facilities, and nursing homes, ensuring authenticity. Respondents are fully informed about the process and goals, with clear communication at every step. Panelists have easy access to their profiles, privacy policy, and terms of use, ensuring a secure and seamless experience.

TECHNOLOGY FIRST:

We leverage cutting-edge panel platform technology and innovative research techniques to ensure exceptional survey quality. Our independent platform is designed to deliver a seamless and positive survey experience, redefining how respondents engage and communicate during surveys. With a clean, consistent, and intuitive interface, respondents can participate effortlessly across all mediums—online, mobile, or offline. Our modern approach fosters motivation and retention, ensuring sustained respondent engagement and high-quality insights.

ESSENTIAL SAMPLE VITALS

Quality:

Essential sample vitals for a worldwide research company focus on ensuring representativeness, reliability, and ethical compliance. Key elements include demographic diversity (age, gender, ethnicity, geography), statistically adequate sample sizes, and clear recruitment criteria.

The quality control process start with recruitment:

Double opt-in recruitment:

All of our panel members are screened through double opt-in recruitment process, in which when a panelists register themselves on our website we send them confirmation link to confirm their email id and follow-up mail after registration. Our recruitment process as follows:

Step 1: After registration completion need to confirm all the verification process like name, age & address

Step 2: Respondents are required to confirm their mail id and double opt-in process.

Step 3: Each new recruited respondent is kept as new member till their first survey completion and quality markers are also checked in their first survey.

Quality and accuracy:

Quality and accuracy in research are achieved through meticulous planning, execution, and validation at every stage. High-quality data is ensured by employing robust recruitment strategies, representative sampling, and comprehensive pre-screening to match study objectives

Full authentication of respondents

- Digital Fingreprinting
- Source certification
- Verification
- Geo-IP-Control
- Time stamps
- Questionnaire Quality control
- Reward claim authentication

Matched respondents

- Real time profiling
- Questions authentication
- Customized incetivization

Proven Consistency

- Tools to provide consistent data
- Multiple quality control
- Active monitoring

COMPREHENSIVE SECURITY AND DATA INTEGRITY CHECKS

01

Blacklisted Sources:

The recruitment sources are rigorously screened periodically and the grading is done on the basis of recruitment quality

02

Suspicious ISPs:

We actively monitor and block survey panelist coming from suspicious internet service provider and hosting companies.

03

Proxy traffic:

We actively monitor and block proxy sourced traffic like those who are trying to mask their origin and block them.

04

Cookie Tests:

Cookies help us to identify whether respondent has already completed the survey or not from same device. Cookies enable us to monitor the devices.

05

IP address:

We actively monitor and note the IPs used for the survey, overused IPs addresses are blocked from taking the survey.

06

Geo IP verification:

We can actively get the respondent location from IP address they are having from ISPs, the process allow us to actively verify the geo-location of respondent before taking the survey.

07

Profile data quality:

Profile data quality is actively monitored for any suspicious activities and irrelevant behaviors.

08

Behavioural monitoring

We use our tools to actively monitor individual panelist movements like completion speeds, click activity and inconsistent responses. These respondents are flagged for quality checks.

EXPERT HEALTHCARE INSIGHTS

Physicians Panel: Worldwide Research Healthcare physician panel is a curated group of licensed medical professionals who participate in research studies, providing insights on healthcare trends, patient outcomes, and clinical practices, Every medical specialty and sub-specialty like Medical Oncologists, Nephrologists, Transplant Surgeons, Hemato-Oncologists, Vascular Surgeons and many more.

We can help you to conduct Quantitative and Qualitative researches with physicians to understand their experience, attitude, opinions including:

- **Concept Testing**
- **Brand awareness**
- **Tracking studies**
- **Gap-Analysis**
- **Tracking studies**
- **Ad message testing**
- **Prescribing behavior**
- **Attitude, trial and usage studies**
- **Purchasing behaviors**
- **Medical devices and drugs practice studies**
- **Customer satisfaction**

ALLIED & PATIENT INSIGHTS

Allied Healthcare Professionals Panel:

An Allied Healthcare Professionals (AHP) Panel is a group of certified professionals who work in collaboration with physicians and other healthcare providers to deliver patient care. These panels play a crucial role in global research by providing insights into clinical workflows, patient management, and healthcare innovations beyond traditional physician perspectives

Patients and Care givers Panel:

A Patients and Caregivers Panel is a curated group of individuals who provide critical, firsthand insights into the experiences of receiving and managing healthcare. These panels are vital for understanding patient journeys, treatment adherence, quality of life, and the role of caregivers in healthcare delivery.

Healthcare professionals

Specialty	
Anatomic and Clinical Pathology	Occupational Medicine
Anaesthesiology	Ophthalmology Orthopaedic Surgery
Cardiology	Orthopaedics
Child and Adolescent Psychiatry	Otolaryngology
Dermatology	Pain Management
Diagnostic Radiology	Pathology
Emergency medicine	Pediatrics
Endocrinology, Diabetes and Metabolism	Physical medicines and Rehabilitation
General Physician	Plastic Surgery
Family practice	Preventive Medicine
Gastroenterology	Psychiatry
General Surgery	Pulmonary Diseases
Geriatrics	Radiation Oncology
Obstetrics and Gynaecology	Radiology
Haematology	Rheumatology
Internal Medicine	General Surgery
Oncology	Thoracic Surgery
Infectious Diseases	Urology
Internal medicine-Pediatrics	Vascular Surgery
Neonatal-Perinatal Medicine	Nephrology
Allergy and Immunology	Neurological Surgery Neurology

Dental Specialties	Payer System Roles
General Practice	MCO/Payer Organization
Pediatrics Dentistry	Administration
Orthodontics/ Dentofacial Orthopaedics	CEO/President
Endodontics	Chief Financial Officer (CFO)
Prosthodontics	Chief Information Officer (CIO)
Public Health Dentistry	Chief Operating Officer (COO)
Oral/Maxillofacial Pathology/Radiology	Medical Officers
Oral/Maxillofacial Surgery	Pharmacy Directors

Category	Decision Makers/Key Roles
<p>Hospital Chains</p>	<p>Executives, Decision Makers, Medical Directors, Pharmacy Directors, Key Opinion Leaders, Chief Administrators, Chief Information Officers, IT Directors, Nursing Directors</p> <p>Clinical System Directors, Biomedical Engineers, Technicians (Equipment-related)</p>
<p>Pharmacy</p>	<p>Hospital Pharmacy, Retail Pharmacy, Chain Retail Pharmacy, Independent Online Pharmacy</p>
<p>Animal Care</p>	<p>Veterinarians (Small Animals), Veterinarians (Large Animals), Veterinarians Oncologists</p>

Allied HCP's Panel includes:

Category	Allied HCP Roles
Technicians	Anesthesia Technician, Electrocardiogram Technician, Renal Dialysis Technologist, Surgical Technologist
Engineers	Biomedical Engineers, Technicians (Eng./Operators)
Therapists	Respiratory Therapist, Speech and Hearing Therapist, Occupational Therapist, Physiotherapist
Nurses	Nurse (Anaesthetist), Nurse (CNM), Nurse (ICU/CCU), Nurse (Others), Nurse Practitioner (NP), Nurse (RN)
Physicians	Physical Medicine & Rehab, Physician Assistants
Diet and Diabetes Experts	Dietitians, Diabetes Educators
Laboratory Professionals	Medical Laboratory Scientist, Laboratory Managers
Hospital Staff and Admin	Hospital Administrators, Pathologists
Specialists	Diagnostic Radiographer, Operating Department Practitioner, Prosthetics
Psychology and Social Work	Psychologists, Social Workers
Optical and Hearing Professionals	Optometrists, Audiologists
PCT Staff	Patient Care Technicians

Global Physician's Capabilities:

Global Physician's Capabilities encompass advanced medical expertise, specialized treatments, and access to cutting-edge technologies. These physicians deliver high-quality, patient-centered care, often collaborating internationally to ensure global healthcare standards.

The Ailment Panel comprises over 3,75,000 regularly profiled patients and caregivers globally, with the ability to access insights into more than 85 consumer ailment conditions, including both highly prevalent and rare cases. Our research spans a wide range of categories, including allergies, blood disorders, cardiovascular diseases, diabetic conditions, gastrointestinal disorders, infectious diseases, neurological conditions, cancers, skin conditions, and urological and kidney diseases. This extensive coverage enables us to provide valuable data on patient and caregiver experiences across diverse medical conditions
